

# CardSwap

CardSwap is a service that allows you to link a payment method (credit or debit card) to multiple subscription services in one location, online banking. Setup is as easy as signing into each account you want to enroll in CardSwap. You can set up notifications and link additional accounts at any time, there is no limit.

Note that in most cases, card information is updated at the merchant within one day, however, in some cases it may take up to 48 hours.

Sign into online banking and click “Services” on the left navigation bar to get started, then click “CardSwap.”

The screenshot shows the 'Services' page in an online banking interface. On the left is a navigation menu with the following items: Home, Transfers & Payments, Manage External Accts, Marketplace, Card Management, Services (highlighted), Messages, Settings, Bill Payment, Open New Account, and Log Off. The main content area is titled 'Services' and contains a section for 'ACCOUNT SERVICES' with six options: Online Activity, Stop Payment, Check Ordering, Electronic Statements, Intuit® Direct Connect Registration, and CardSwap. The CardSwap option is highlighted with a red rectangular border. The CardSwap option includes the text: 'Update your card on file across subscription services and more'.

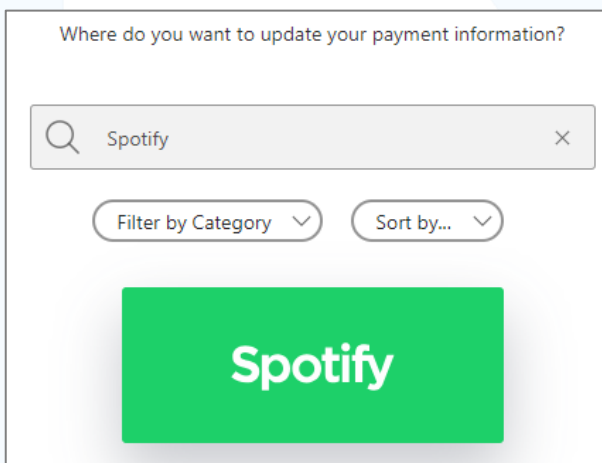

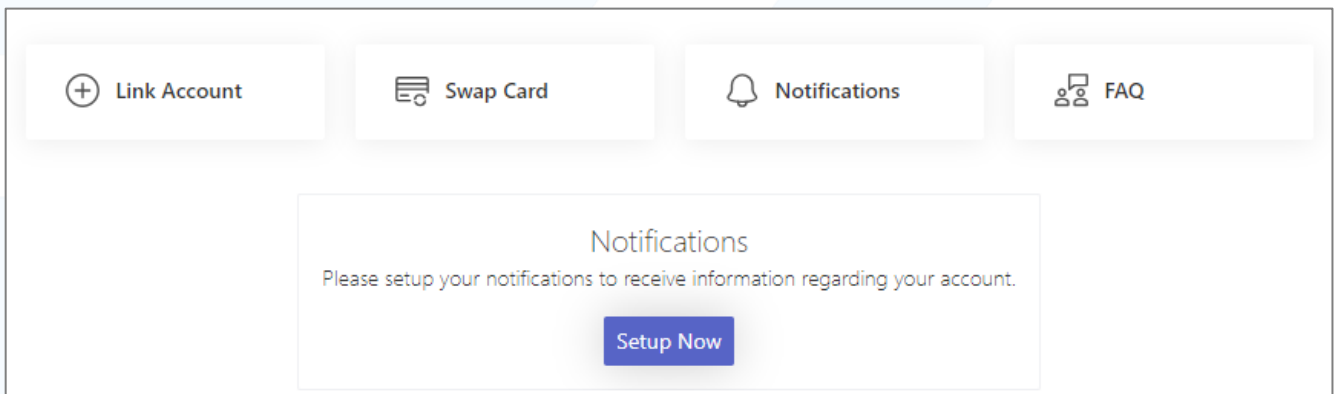

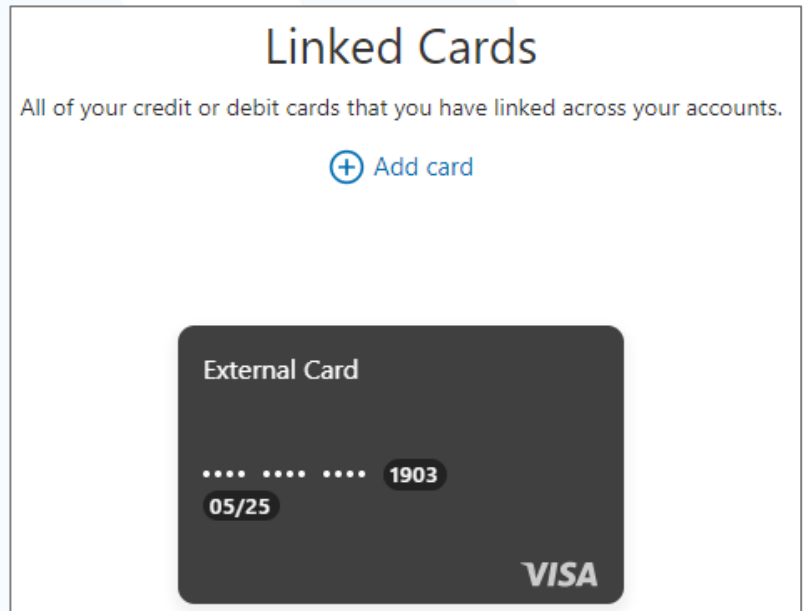

ACCOUNT SERVICES	
<b>Online Activity</b> View & manage recurring transactions created in online banking	<b>Stop Payment</b> Place a stop payment on a check
<b>Check Ordering</b> Order paper checks for any checking account	<b>Electronic Statements</b> Access your statements
<b>Intuit® Direct Connect Registration</b> Register here to enable Direct Connect in your Quicken® or Quickbooks® software	<b>CardSwap</b> Update your card on file across subscription services and more

## The Business Bank – CardSwap Product Overview

You can add a credit or debit card at the top of the screen.

Note that you do not need to use a card from The Business Bank with CardSwap. All major card providers are supported.

Scroll down after adding a credit or debit card and click “Link Account.”

You can pick from CardSwap’s list of popular options or search for a certain service by typing in the bar at the top.

Click the logo for the service you want to link or select multiple services at once and click continue.

## The Business Bank - CardSwap Product Overview

Enter your credentials for the service(s) you picked in the previous screen and click “Link Account” to finish.
